

# Metalsmith Symposium Request

The East Kingdom Metalsmiths Guild request that you consider hosting the 2018 Metalsmiths Symposium.

We would use one of the “Yurts” for an indoor clean work space in addition to using it as sleeping space.

We would put up 3-4 EZ ups in locations you assign for outdoor classes. Perhaps in the covered area to the side of the courts. Near camping. Any forges that are set up would be self contained under a pop up.

We would put a glass bar somewhere. Perhaps in a tent or a series of pop ups. This could be placed almost anywhere.

We would not need to use any of the indoor lodge space. Campers would register for either camping or a yurt space like anyone else.

We could add 35-50 to your numbers. Those participants would also enjoy the Barleycorn festivities.

Most would join in feast.

Details in the where to place the classes can be worked out in the months to come.

It would be a great symbiosis of amazing activities to join you this year.
